India, Saudi push for early Bilateral Investment Treaty

FM Nirmala holds talks with counterpart

New Delhi, Nov 12: Union Finance Minister Nirmala Sitharaman held a bilateral meeting with Khalid Al-Falsh, Minister of Investment, Saudi Arabia, on Wednesday in New Delhi, with the talks focusing on negotiations on the Bilateral Investment Treaty (BIT) between the two countries.

According to a Finance Ministry post on X, the two sides emphasised on the need to conclude negotiations swiftly to unlock robust two-way foreign direct investments (FDI) and deepen economic cooperation.

"While the right balance safeguarding India's policy space while ensuring that foreign investors have confidence in legal protection," a stance she reiterated from her recent statements on revamping India's model BIT to make it more investor-friendly.

Saudi Arabia is a key partner for India, being the fifth-largest trading partner and a major source of crude oil imports. The discussions come amid ongoing efforts to diversify and strengthen India's economic ties with West Asia, particularly under the government's push to attract \$100 billion investments from the Gulf region in the

coming years. The two leaders also explored opportunities to expand cooperation in sectors such as renewable energy, infrastructure, and technology, building on the momentum of recent high-level engagements, including Prime Minister Narendra Modi's state visit to Saudi Arabia earlier this year.

An early conclusion of the Bilateral Investment Treaty will not only boost two-way FDI but also open new avenues for collaboration across multiple sectors, said Minister Sitharaman after the meeting.

Al-Falsh is also reported to have echoed the similar sentiment that Saudi

Arabia remains committed to working closely with India to finalise the treaty as the earliest.

The talks are part of a broader diplomatic push by India to negotiate BITs with strategic partners, including the UK, Qatar, and the European Union, as part of its efforts to enhance the ease of doing business and attract sustained foreign investments.

Negotiations on the India-Saudi Arabia BIT have been progressing steadily, with both sides aiming to conclude the agreement by the first quarter of 2026.

Netanyahu now calls Iran permanent threat

Tel Aviv, Nov 12: Israeli Prime Minister Benjamin Netanyahu, during an address to the Knesset, said that Iran remains a persistent threat to Israel despite suffering crippling damage, and demanding losses during the 12-day war in June.

"The Iran conflict began after Israel launched a surprise military campaign targeting Iranian nuclear and military sites, prompting Tehran to retaliate with hundreds of drones and ballistic missiles. The fighting quickly escalated, and ultimately drew in the US, which jointly attacked Iranian facilities with Israel."

"We crushed Iran's state of war. We destroyed and neutralised the dual threat from Iran - the nuclear threat and the ballistic threat alike," Netanyahu

said in his address to parliament, as opposition members criticised his government's handling of post-war diplomacy, reports Channel 12.

"This is a real threat, but not what it once was. We act with determination, initiative, and strength," he added.

The Iran conflict began after Israel launched a surprise military campaign targeting Iranian nuclear and military sites, prompting Tehran to retaliate with hundreds of drones and ballistic missiles. The fighting quickly escalated, and ultimately drew in the US, which jointly attacked Iranian facilities with Israel.

On June 22, the US Air Force fighter jets carried out coordinated strikes on Iran's key nuclear facilities in Fordow, Natanz, and Esfahan, and inflicted significant damage to the facilities, dewatering the programme.

Though, US President Donald Trump had previously described Washington's intervention as a "success", claiming it had led to the "obliteration" of Iran's nuclear infrastructure, that claim has since been proven false, as even the US bunker buster bombs could not destroy all the underground floors in these facilities, with much of the equipment, reactors, and uranium stockpiles

in the deepest levels remaining unharmed.

While a ceasefire was soon reached and has remained largely in place undisturbed, tensions have far from de-escalated, with officials in both countries being grimly certain that another confrontation was soon to follow.

IDF officials, confirming Tel Aviv's continued vigilance and surveillance of the Iran's missile and nuclear development activities, further warned that any future confrontation could be "longer, wider, and far more destructive" than the last.

US sanctions Indian firms over Iran links

Washington, Nov 12: The United States has announced sanctions against 22 companies and individuals from six countries, including India,

accusing them of aiding Iran's ballistic missile and drone production.

In a statement issued by the US Department of State, the move was

described as part of Washington's broader effort to support the United Nations' reinstatement of an arms embargo and other sanctions on Iran over its nuclear programme in September.

While the statement did not reveal the names of the sanctioned entities or individuals, it said they were involved in "multiple procurement networks supporting Iran's ballistic missile and unmanned aerial vehicle (UAV) production, including on behalf of the Islamic Revolutionary Guard Corps (IRGC)".

The sanctions target firms and individuals based in India, China, Hong Kong, the UAE, and Turkey, among others. The US administration said the

move aligns with National Security Presidential Memorandum-2, aimed at countering Iran's missile development and restricting the IRGC's access to global assets.

This marks the latest in a series of punitive measures by Washington against entities linked to Iran. Last month, the US sanctioned eight Indian nationals and several India-based companies for allegedly facilitating Iranian energy trade, targeting around 40 entities, individuals, and vessels.

Earlier in July, at least six Indian firms faced similar sanctions for allegedly engaging in trade involving Iranian petroleum and petrochemical products.

HDFC BANK

Registered Office: 107, East Avenue, 10th Floor, Anna Nagar, Chennai - 600 035. (Phone: 400 1111 and 400 1112 or 400 1113)
